Dr. Annette Zupin
Superintendent

June, 2018

On Sunday, June 3, 71 NJ-SP Seniors walked across the stage to receive their diplomas. We wish them nothing but success and happiness in their future endeavors. There is also much confidence that NJ-SP Schools have provided them with a solid educational, emotional, and social foundation in which to spring into life as an adult.

The NJ-SP campus is buzzing with traffic and excitement this summer. Our Capital Projects are all underway.

- Tennis courts have been demolished, drainage installed, and paving started.
- Energy efficient, LED lights have been installed in the Agriculture wing and are now being installed in the rest of the Jr-Sr High School.
- Roofing on the football locker room has begun.
- Baseball and softball diamond work is well underway—with dugouts and press boxes demolished. New scoreboards and fencing are part of this project.
- New carpet has been laid in the Jr-Sr High School Media Center and Main Office Area.
- HVAC units have been taken down in order to replace with new, energy-saving units.
- Construction on the main entrances of our buildings will begin soon. This construction will allow for secure entrances at all three building entrances.
- Security cameras and key fobs have been added to both buildings to allow for enhanced security.
- A brand new sign has been erected on Highway 10 welcoming everyone to our school corporation.

Please continue to watch our progress this summer, as we work to create an optimal learning environment for our students.
