

Register for Summer with SCYC

TAKE THE BOREDOM OUT OF YOUR SUMMER!

Summer with SCYC is a 4-week program designed to increase your science, technology, engineering, math, and ROBOTIC skills. Each day you will participate in hands-on activities designed to improve your problem solving skills and give you real-world STEM experiences. You will also have the opportunity to build, program, and compete with SeaPerch, an underwater robot!

You'll get plenty of exercise, too. Open Recreation will include basketball, corn hole, and swimming. There's even a field trip planned for your fun.

-  The program begins on June 5, 2017 and will run until June 29, 2017 Monday – Thursday.
-  Free breakfast and lunch provided, along with transportation for students within the busing area.
-  After STEM and Robotics, students will enjoy a variety of physical activities, including outdoor recreation, basketball, and gardening.
-  Club favorites such as cooking and craft will fill our day too!
-  Each day begins at 8:30 and ends at 12:30, giving you plenty of free time to hang out or play summer sports.
-  Registration is \$20 per student. This helps to cover the cost of our supplies, including a field trip. Scholarships are available.
