

North Judson-San Pierre School Corporation is ready to announce our 2020-2021 Reopening Plan. Please find below a summary of the plan along with major points of emphasis. The entire plan can be found using the link attached.

It is important to note that the presented plan is subject to change if conditions and circumstances related to COVID-19 dictate to do so. Our planning team realizes the need for flexibility to change the plan if necessary.

When deciding how your child will “attend” school this year, please follow the directions below:

- North Judson-San Pierre will offer an option for families to learn from home using digital devices.
 - If you are registered, but are choosing to have your student(s) participate in an alternative option, please email me by July 24 at azupin@njsp.k12.in.us. Include the student name, grade, and your contact information, as schools will be reaching out the week of July 27 to begin developing a learning plan for your student.
- If you are already registered and plan to send your student(s) back to school under “normal” school procedures, you do NOT need to do anything, as registration has already taken place.
- If you are not registered, our Elementary and Jr-Sr High School offices will open the week of July 27 for you to register, ask questions and make known which option you have selected for your child or children for the 2020-2021 school year.
