Dr. Annette Zupin  
Superintendent

Dear Parents and Community:

A challenging and positive school year is drawing to a close. Over the course of this school year, we worked hard on strengthening our Math and English/Language Arts skills. We made measurable improvement in most grade levels and hope to see continued growth from our students on the recent State Assessments. We also worked on college and career readiness. Our Administrators and Counselors have worked closely with our Vocational Education Service Center to ensure that all of our students have opportunities to earn dual credits and earn certification in the trades. NJ-SP will be ready for the Graduation Pathways. Our Elementary School worked intensely this year to establish appropriate processes for providing assistance and interventions for students.

Despite the constraints and challenges all schools face today, we continue to focus on improvement. This is a reflection on the dedication, perseverance and collaboration of staff throughout the corporation. May you all enjoy time with family and friends this summer.

See you in August.
